

TITLE of the INVENTION

"Method and device for managing the resources of a computer communication means for processing a computer document"

TEXT of the ABSTRACT

This method of managing the resources of a computer communication means for processing a computer document stored on a processing control device connected by the communication means to at least one processing device includes a step of selecting at least one processing device of the communication means as a function of a first group of criteria relating to the functioning of this device, and a second group of criteria relating to its geographical situation.
